1. Once again, I feel forced to use this method for returning a receipt. As I pointed out in pouch reference, I do not understand the instructions forwarded in Para. 2 of [REDACTED] 4745 which states that receipt should be forwarded by normal channels, Eyes Only, in an envelope addressed to [REDACTED] in care of IDEN B. As IDEN B appears to be a true name, there is no way we can securely comply with these instructions. Also, when you state "normal channels" I must presume that you refer to normal channels for [REDACTED]. If I am right in this assumption, I would suggest that in future, I merely pouch the receipt to you, asking that it be passed by your office to [REDACTED].

2. If you have different wishes in this regard, please advise.
