Position: ELINT Analyst, Electronics Division, OSI

25X1A9a

Name: [REDACTED]

Justification: This position is requested to provide necessary additional manpower for the evaluation of Project ELINT data. Requirements for complete and integrated studies of ELINT data taken from AQUATONE operations have grown steadily in scope and importance while at the same time necessary personnel reassignments have seriously impaired the capabilities of ELINT Branch to provide the required services. The person nominated to fill the position, [REDACTED] is uniquely qualified by training and experience to work on integrated ELINT evaluation studies of AQUATONE data.
