MEMORANDUM FOR: The Director

SUBJECT: Biography of General Donovan

I have been talking with Ole Doering about an idea I believe he has discussed with you on a book on General Donovan and OSS. Ole and some of the other partners want very much to do such a book and are willing to finance it. Their idea is a serious biographic study of General Donovan, culminating in a full-scale review of OSS and its contributions. They want it done on a serious rather than popular approach.
