CO-ORDINATING COMMITTEE

Export of Electronic Equipment to Poland

Memorandum by the United Kingdom Delegation

The United Kingdom authorities have been asked to approve the export to Poland of 3 Line Strobe Waveform Monitors covered by I.L. Item 1584 and valued together at \$5,863.

2. The importer is ELEKTRIM and the instruments are stated to be required for control and testing purposes in television. The equipment, which is by no means modern, was designed for this purpose and has been in general use for some time. The Committee has previously approved the export of similar equipment to the Bloc and a full technical description will be found in COCOM Doc. 2976.

3. Her Majesty's Government regard the present requirement as being reasonable and wish to authorise the export under the special Polish exceptions procedure. They would be grateful for the views of Member Governments by April 25.

United Kingdom Delegation,
Paris.

April 7, 1960.
