COORDINATING COMMITTEE

RECORD OF STATEMENT BY THE UNITED STATES DELEGATE

CONCERNING ITEM 4661 - NICKEL

15th October, 1959

S/D

Present: Canada, Denmark, France, Germany, Italy, Japan, Netherlands;
United Kingdom, United States.

The United States Delegate referred to the Note to Item 4661, which fixed a rate of flow not exceeding 1,000 tons per month for exports of nickel to the Sino-Soviet Bloc. On the basis of a preliminary tabulation of the List IV statistics, it seemed that more than 3,300 metric tons of nickel had been exported during the first quarter of 1959. The Delegate suggested that a complete summary of exports caught by Item 4661 should be made for the period from September 1958 until the present moment so that the Committee could analyse the situation.

Note by the Secretariat.
