LIAISON 3-4

Sanitized - Approved For Release : CIA-RDP62-00680R000100360001-8

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Chief, Geographic Research

DATE: 13 May 1959

FROM : Chief, Geography Division

SUBJECT: Comments on ERA Plans

1. We feel that the attached tome is a splendid job and that some ordinarily under-worked staff must have been kept busy assembling it.

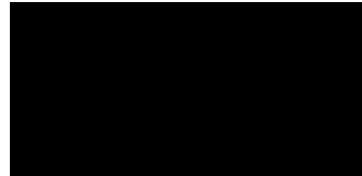

2. We wonder whether it represents real planning. In an age where the unpredictable is commonplace is a 17% "reserve for future requests" enough? Our reserve probably runs to 35%.

3. We were interested to note that only 37% of the analyst's time is devoted to research. Our analysts average better than 45%.

4. The subject matter of the proposed reports seemed very good to us and we have no further comment.

5. We wish we were in the luxurious position of being able to spend 30% of our time on self-initiated projects.
