

MEMORANDUM FOR: Inspector General

8 August 1955

SUBJECT : DD/S Comments on I.G. Survey Report/Medical Staff

1. I am returning for your files, the comments made by the Chief, Medical Staff on the principal recommendations of our survey report on the Medical Staff. As indicated in a covering memo dated 27 May 1955, the DD/S is in substantial agreement with the views expressed by the Chief, Medical Staff.

2. With reference to the disagreement with recommendations 2 and 6, and assuming that you have not yet discussed this matter with the DD/S and the Chief, Medical Staff, you may wish to consider the following:

a. Recommendation No. 2 25X1C

The comments made by [REDACTED] re the extension of preventative medical facilities to include domestic field personnel are reasonable from a practical point of view. As long as the Medical Staff is aware of the inequity and plans to do the best it can on this score, I see no point in belaboring this any further.

25X Recommendation No. 6

[REDACTED]

25X1X3

25X1X3

[REDACTED] Personally I would like to see the Medical Staff have a little more authority over TSS activities. If the DD/S and Chief, Medical Staff are of the opinion that they are not "biting off more than they can chew" more power to them.

3. The above views are for your information and whatever use you wish to make of them.
