MEMORANDUM FOR: Director, Photographic Intelligence Center

SUBJECT: USSR Interdepartmental Commission on Aerial Surveys; Translation by [redacted] 25X1A9a

REFERENCE: Your memorandum to AD/RR and AD/SI dated 13 October 1960, same subject

1. The subject conference is one of the many held in the USSR that are of interest to ORR. Useful information may often be mined from these reports and incorporated in research files. We have taken the liberty of making a copy of [redacted] trans- 25X1A9a lation-commentary. We do not, however, find anything of unusual significance in this particular report.

2. Reference para. 5 of the attachment, it may be misleading to say that the report by D.M. Kudritskij dealt with "the decision of [GUCK, etc.] on aerial survey materials to be put in a central Government warehouse." This is not explicit in the original statement, which we translate to say that aerial survey materials were "acknowledged as being subject to extended centralized State archival protection."
