2. Met with Mr. T. Edward Braswell, Staff Member, Senate Armed Services Committee, and provided him with a two-page outline titled "Administration of Proposed CIA Retirement System" for his use in discussion of H. R. 8427 during executive session this morning. Mr. Braswell indicated that although this classified paper was exactly what was needed for executive session he would need an unclassified version of this paper for use in the committee report and in possible floor discussion.

Upon completion of executive session, Mr. Braswell advised that the committee had approved reporting H. R. 8427 as set forth in Committee Print No. 2 to the Senate. This Committee Print contains the revised definition of qualifying service agreed upon yesterday afternoon. He advised that he had also outlined the additional provisions desired by the Agency and the reasons therefor, but that the chairman, with the agreement of other members, indicated that he was not desirous at this time of including those provisions in the bill to be reported.

As for reporting of the bill to the Senate, Mr. Braswell advised that the actual reporting would be accomplished late tomorrow afternoon and that he will be doing final work on the draft of the report tonight and the first thing in the morning. An appointment was made for Mr. Warner and myself to meet with Mr. Braswell at 10:30 in the morning to review the report prior to publication.

8. [redacted] George Murphy, Joint Committee on Atomic Energy staff, called to advise that he was sending us a "routine" letter concerning security procedures in the delivery of classified material to the JCAE. Mr. Murphy said that this stemmed from the problems encountered in other agencies but as a result of those problems the Committee was restating its procedures to all departments and agencies with whom the Committee has contact. Mr. Murphy merely wanted us to know that there was absolutely no problem in this regard insofar as the Agency is concerned.
