DATE: October 7, 1946

FROM :

SUBJECT: Weekly Activity Report, Week Ending 4 October 1946.

1. Intelligence Program - USSR. Interdepartmental Committee now drawing up a Strategic Intelligence Digest for USSR is finding many large gaps in its information. The committee is prepared to draw up a set of National Intelligence Requirements for Russia as soon as the pattern is set by CIG. ICAPS will not look direct to committee but will call on ORE for first draft. No program for collection by OSO has as yet been found.

3. Lecture on National Intelligence for Air War College. Lecture submitted by Advisory Council was obsolete, and they have been requested to revise. Air War College requested receipt by 15 October. This is now impossible, but revision should be pushed.

4. Scientific Information Program on Russia. This is a high priority subject but the general approach suggested by OCD can be speeded up by a statement of requirements arrived at as a result of 1 above. ORE now has the paper for comment and will hold discussions with OCD.

5. Foreign Documents. Discussion held with all agencies on Dissemination Procedures, develops point that Tech Intelligence, Wright Field, AAF feels qualified to handle cataloguing and indexing of all foreign (and domestic) documents received. [REDACTED] will discuss with JRDB, A-2, and [REDACTED] of CIG.
