As expected the Branch reaction was varied. I suggest the next step is to submit this to the Director via ICAPS and get IAC agencies to agree to accept these guides.

OCD put in the usual beef about non-coordinating with Industrial Registry, Biographic Registry and OSI. We had pretty well discussed the pro's and con's on this and decided that these offices would not be concerned since there specialized requirements are pretty well taken care of. We also wanted to avoid a more than "one layer deep" guide. However, I suggested to [REDACTED] (OCD) that they make a trial run on this guide and see what IR, BR and OSI had to offer. This is now in the works.

25X1A There was some SNAFU in OCD about getting additional copies of this [REDACTED] guide but I think I got the log jam broken this afternoon with [REDACTED] of OCD. [REDACTED] is standing by for further word from me.
