

TOP SECRET*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Acting Ass't. Director, ORE

DATE: 3 July 1947

FROM : Chief, ICAPS

SUBJECT:

1. In his report to the NIA at its 10th meeting on 26 June 1947, the Director stated: "Our big problem in the production field is the NIA requirement that the concurrence or comment of each IAB agency to each CIG intelligence report must be obtained, excepting current intelligence reports. I plan to review this situation personally with the IAB."

2. A meeting of the IAB has tentatively been set for 17 July. It is requested that your office submit, for the possible use of the Director, a brief paper outlining the problem confronting ORE and making proposals for correction. This paper should be in such form that it may be readily adapted for circulation, over the Director's signature, to the IAB to become an item on the next agenda.
