Case K-1750:

REFERENCE: ORE Working Paper, <sup>WE</sup> ~~NEA~~ Division,  
18 April 1950. (CIA No. 419235)

This working paper contains a special article on "Shift in Communist Strategy in French Africa," which refers to an editorial clash which recently took place in Algeria between the Communist Liberte and the UDMA organ La Republique Algerienne. "The latter, in an open letter... accused the Communists of trying to split the UDMA or dominate it...went into the history of Communist betrayals of Moslem nationalism..."

REQUESTED: Text (preferably in English) of this "open letter" which appeared in La Republique Algerienne.

Bob, Do you think the ORE analyst who prepared the article in the Working Paper would have a copy of (1) the text of the "open letter," or (2) a copy of the newspaper La Republique Algerienne, which contained the "letter"?
