2. I told Mr. Vance that I would bring his request to the attention of Mr. Warner and that he would be hearing soon from either Mr. Warner or [redacted]. Mr. Vance stated that, as he saw it, the recommendation to amend section 4 of the Agency's Act to provide for similar travel authority and the administrative adoption of the other benefit provisions of the bill, if passed, seem to be the course to follow. He further stated that he was this day asking [redacted] to carefully examine the retirement ramifications brought up in [redacted] paper.
