Dear Paul:

Many thanks for your letter of March 30, enclosing copies of PROCIB D-25 on scientific information services in Japan and Communist China. We are glad to have these, and have noted, in connection with the latter, the restrictions on publication consistent with your security policy.

In turn I am enclosing a section typed from a published list of the institutions and government agencies in Communist China with whom the Polish Academy of Sciences has established exchange relationships. Although this is dated 1956, it may still be valid, and I am asking Scott Adams to try to update this information on his next trip.

Sincerely,

Burt
