Chief, Real Estate and Construction Division, OL

Leased Quarters Costs

1. Analysis has been made of the costs of leased quarters at each Station overseas to determine the degree to which they are able to conform to the quarters allowance prescribed by "Standardized Regulations" for the area. For convenience, these costs have been reduced to a percentage of the standard quarters allowance and are tabulated in frequency distribution.

2. Attached are two tabulations, one showing the results for each Station in your area. the other for comparisons by areas.
