

5-7

SECRET

6 May 1965

Mr. Earman:

Jack,

Attached is the schedule for your trip and a detailed runout of the arrangements which we have completed. If you have any questions left please call me and I will be happy to try to answer them.

The people at FTD have told us that they would be quite rushed owing to the Moscow Parade photography but I would not back off hoping that you might derive a side benefit from seeing them in action on that particular exercise in accordance with our conversation of 6 May. [redacted] will start with a 1 1/2 hour general briefing and then go on in accordance with your questions and interests. In this instance he knows you are the IG doing a survey of NPIC. We assured him your visit and inspection of us was done in the helpful and not critical or negative sense since he seemed a bit concerned over this point.

25X1

With regard to the SAC end of your trip I did not elaborate the details since you had talked to Russ McGinney personally.
