OFFICE OF LEGISLATIVE COUNSEL

Friday - 15 October 1971

1. (Confidential - GLC) J. Sourwine, Chief Counsel, Senate Internal Security Subcommittee, called to say that despite earlier indications the Subcommittee has decided to print the "Bibliography of Soviet Produced Publications Containing References to the RIS, 1964-1970" which we gave to him in May with some format revision by the Library of Congress. Sourwine said they would have page proofs of the document toward the end of next week and would make a copy available to us at that time for our review and deletion of any material we wish. I reminded him that we had definite reservations about the publication of the section of this document having to do with intelligence and he said we could make whatever deletions we felt were necessary.

I mentioned to Sourwine we would be bringing over to David Martin, of the Committee staff, next week the JPRS translation of the Soviet document "Stairway of War and Deception" for possible publication by the Subcommittee. Sourwine thanked me for our consideration in making this available.
