# MEMORANDUM FOR: Assistant Deputy to the DCI for the Intelligence Community

SUBJECT

: Possible Regulatory Limitations on Interdepartmental Committees

1. This is a recap of our two telephone conversations regarding concern communicated to me by Donovan G. Fischer, Chief of the Technical Division, Office of Security, Department of State. Don is also Chairman of the Audio Countermeasures Subcommittee of the TSCC. In the past week he has had his attention directed to a recent Executive Order and the 1973 Appropriations Act by management personnel at State in the manner which suggests there may be problems for the TSCC (and possibly other interagency committees).

2. Executive Order 11671, 5 June 1972, apparently deals with the subject of executive management and seems to prohibit establishment or participation in interagency committees, boards, etc., which are not authorized by statute or Presidential directive. In their annual review of State Department's participation in such interdepartmental groups, State management office (not otherwise identified) asked Don for the charter which required his membership on our Subcommittee. He intends to use DCID 1/12 and hopes to get by with it although I pointed out to him that this does not cover his specific assignment to the Subcommittee and that the question of chairmanship of this body was a subject of correspondence between the DCI (McCone) and the Acting Secretary of State (Ball).

3. The second questionable regulation apparently is Section 609 of Public Law 92-351, approved 13 July 1972, titled "Treasury, Postal Service and General Government Appropriations Act, 1973." It says in part that "No part of any appropriation Approved For Release 2001/12/12 : CIA-RDP73B00296R000400150007-5

contained in this or any other act shall be available to finance interdepartmental boards, commissions, councils, committees, or similar groups under Section 214 of the Independent Offices Appropriations Act, 1946, which do not have prior specific congressional approval of such method of financial support." The inquiry regarding the application of these provisions to the TSCC apparently came from "FRM/BP" at State which I cannot identify but apparently is a budget/planning/management group of some kind.

4. I feel quite sure that there is no real problem but it might be useful to get a quick reading from General Counsel's office as to whether there is any merit in Fischer's concern that these two recent enactments might cause some problems for Committee operation.

STATINTL

Executive Secretary, TSCC
