MEMORANDUM FOR ~~THE DIRECTOR~~

*Cal. Grogan*

This memorandum for information only.

Dick Harkness, on his own, in his broadcast tonight re the Middle East will state that American Intelligence did a good job in predicting what would happen; the President having received a prediction in writing that the publicized probable attack on Jordan by Israel was a smokescreen, that it was predicted that Israel would attack Egypt and that France and Britain would intervene in the Canal Zone.

This should help.
