FOREIGN DOCUMENTS DIVISION

The following is a translation of a TASS dispatch which appeared in the 5 December 1954 issue of Pravda.

An American Newspaper Concerning the Subversive Activity of American Intelligence

New York, 4 December. (TASS) The Chicago Daily News has printed an article by Dorothy Thompson, which states that the material on the activity of the US Central Intelligence Agency which appeared in the Saturday Evening Post corroborates the accusations of subversive activities that have been made against the US.

Noting the beastful tone of these articles, which asserted that the US is plotting to overthrow governments and is engaged in sabotage and other subversive activities, Thompson stresses that these articles were published by the Saturday Evening Post with the assistance and consent of the Central Intelligence Agency. Further, Thompson notes that thirteen Americans were imprisoned in China on charges of espionage, and writes that "Enough information has been published to justify the arrest of Americans or suspected natives wherever they are."
