The American License is Less and Less Exclusive

CPYRIGHT

1962 low license plates of the favored few—so few—1250 of them—are being published today in The Washington Daily News as a guide to District VIPs.

Despite pressure for low plates from more and more citizens, the Commissioners whose word is supreme in this field, have kept the list from growing.

Tags numbered 1, 2 and 3 go, as usual, to the Commissioners themselves, and No. 4, as usual is not assigned, but held for a very big VIP who may turn up on the Washington scene and look for a low plate.

Other VIPs who still haven't appeared can take their pick of 100 tags still not assigned.

The News suggests that you clip this list and slip it into your glove compartment for easy celebrity-spotting during the rest of the year. Yesterday we ran the list of special plates issued to Washington's growing diplomatic colony.
