Bay Fiasco

Thank you for the series of fine articles concerning Communist infiltration in our CIA and State Department. After the dismal inability to handle Castro, and particularly after the Bay of Pigs fiasco, I am sure many people felt there must be a stronger reason than incompetence for these failures.

I am just curious why Otto Otep-

ka, a man who was dedicated to his country and brave enough to expose this treason, was fired so quickly, and these accused spies are still deriving on the taxpayers'

money.

A READER.
