CIA Deception  
Hit by Wright  
WASHINGTON BUREAU  
WASHINGTON Rep. Jim

Wright of Fort Worth said that the disclosure of the Central Intelligence Agency's covert subsidy to the National Student Association "makes us look silly and clumsy as well as phony and deceitful."

Wright added, "It is not that our government was helping to finance these student trips (abroad). It is that we were engaged in a deliberate, diabolic deception. The fact that we were caught at it is merely the inevitable by-product of the original wrong."

The Fort Worth congressman lauded the CIA for the job it has done in the gathering of intelligence.
