3. I instructed Messrs. [redacted] and Garrison that from here on out I expect the Logistics Office to assume complete responsibility for all aspects of the [redacted], including any necessary dealings with the Public Buildings Service.

25X1A9a

4. Talked to Dr. Tietjen about the case of [redacted]. He will furnish me with a memorandum on the subject which should form the basis for a discussion with [redacted] and possibly others in the DD/P area.

25X1A9a

5. Mr. Kirkpatrick advised me that he had agreed with the Medical Staff that Miss [redacted] could be continued in an overt office on a temporary basis. I told him that if the doctors agreed to this I had no objection.

25X1A9a

6. [redacted] Technical Services Staff, telephoned to inquire as to whether or not he should carry the [redacted] or as a "project." I advised him to carry it as a "project."

DIARY NOTES

A-DD/A [REDACTED]

23 July 1953

25X1A9a

1. With [REDACTED] discussed the possible elimination of the General Services Office. [REDACTED], of course, hates to see this step taken. What he would prefer, if any change is to be made, is to merely transfer the General Services Office to the Logistics Office where it would remain intact; in addition, he would hope that Mr. Garrison would agree to transferring to him the responsibility for Departmental supply. He will submit written comments on this subject by Monday. H

2. Jim Garrison and I visited the [REDACTED] Warehouse which is pretty well filled up already, having an estimated \$14,000,000 worth of supplies in it. While I believe that I was able to eliminate a certain amount of alterations so as to substantially reduce Logistics' estimate of \$14,900,000, it does appear to be essential that some work be done (which probably will cost as much as \$75,000) in order to make this an efficient operation. Mr. Garrison will prepare a staff study on the subject. H

3. I requested Ed Saunders to prepare biographical sketches on [REDACTED] and [REDACTED] Agent Cashiers, which I can submit to the Director.

[REDACTED]

5. I asked Ed Saunders to see that the Organization and Methods Service expedited the administrative survey of the DD/P area.

6. Mr. Wisner requested that I arrange to have one additional girl (who is to be assigned to his office) sit in our space. I told him that it would be extremely difficult to work out but that I would do my best.
