DIARY NOTES

25X1A

ADD/A

18 December 1952

1. Matt Baird reports that during the period 3 November to 12 December 1952 thirteen professional employees were entered on duty on a provisional clearance basis and that this situation is creating somewhat of a problem since, due to our previous understanding that we would limit the employment of provisionally cleared employees, he has not devised training courses to take care of these people. I told him that I had anticipated that this matter (the Coyne report) had been settled with the Director prior to this time but that I would try to obtain a decision and have the necessary people notified sometime within the next few days.
