DIARY NOTES

ADD/A

11 December 1952

1. I informed Colonel Baird and  that the Director had recently re-emphasized that he did not want any liquor in CIA buildings at Christmas-time and referred to our previously published Notice on this subject.

3. In order to avoid the necessity of I&S sending all routine cables here for signature, I approved of the area divisions signing as releasing officers with I&S concurrence. I&S will, however, insure that non-routine cables which they think DD/A should know about are sent here for signature.
