4. [REDACTED] brought me a paper on "document security" which had been prepared by a working group chaired by the Management Staff and on which the Office of Security was represented. The paper is now ready to go to the Intelligence Advisory Committee and Jean wanted to know what the official position of the Agency would be. I referred it to [REDACTED] with instructions that he consult with [REDACTED] and Shef Edwards and 25X1A9a submit their joint recommendations by the 27th.
