3. General [REDACTED] talked to me about his concern regarding the way in which Projects [REDACTED] are handled. From his audits of these Projects he feels that the Case Officers do not have very good control of them. I told him that I thought it might be well for us to discuss the matter with General Cabell and that I would make arrangements to do so.

4. Discussed with General Cabell our recommendation for an award to Larry Houston. He agreed to approve of it.

5. Congressman Broyhill, along with Messrs. Pearson and Mittman of the Berlo Caterers of Virginia, were in to see me to talk about concessions in our new building. (See Memorandum for the Record.)

7. [REDACTED] advised me that an error of \$107,000 had been made in figuring the amount of money which Project AQUATONE had spent on "System II" and that either AQUATONE would have to pay it or he would have to cut back the number of units in "System II" to five. I told him that I saw no reason why AQUATONE shouldn't pay this money and that if he couldn't work the matter out satisfactorily with [REDACTED] to let me know.
