DIARY NOTES

DD/S

29 January 1958

25X1A

1. I talked to Kirk about the Killian Committee's desire for our study on "personnel problems." He said that he did not know exactly what they wanted and did not believe that General [redacted] could help us but agreed to speak to the Director about it and to have it put on the agenda for the next Committee Meeting on 28 February. 25X1A9a

2. [redacted] called my attention to the fact that during the past week or so the Office of Security had asked for temporary duty travel orders for some thirteen people who were not included in their six months estimate. I told him that those orders which did not appear to be completely justified should be referred to me. 25X1A9a
