DIARY NOTES

18 January 1958

DD/S

25X1A

I discussed with Kirk our need for someone to replace [redacted] on a part-time or "in addition to his other duties" basis. I told him that after discussion of the matter with General Cabell I was considering Captain [redacted], Office of Basic Intelligence, and Don [redacted] of his Staff. He said that he would not only be agree- able to having General [redacted] take this on but that it would in fact be of help inas- much as the General was not as fast as the other inspectors and he was having some difficulty finding jobs for him which were commensurate with his grade; on the other hand, he did feel that General [redacted] could do a very good job in connection with the Boards. It was agreed that he would speak to General [redacted] after which I would have a chat with him and put him to work.
