1. I talked to [REDACTED] about the snag in the Housing Project and he informed me that he had written a personal letter to [REDACTED] which he received in [REDACTED] telling him about the delay. Ed in turn advised [REDACTED] hence, no further action is necessary at this time.

2. [REDACTED] talked to me about [REDACTED]'s plans to retire on 31 December. He had agreed to stay longer inasmuch as his Deputy had had a heart attack and would not be back for several weeks. I told him that I thought we could get along and that he should go ahead and process his retirement papers.
