1. At the Deputies' Meeting this morning we discussed briefly the two fires that occurred in "M" Building last Saturday, 22 July 1961. I have transmitted Walter Pforzheimer's report of this incident to the Office of Security. However, after personal inspection of the damage it seems reasonable to assume that the first and largest fire which occurred about 1430 hours on Saturday was caused by a hot plate and that the second was caused by spontaneous combustion in the PBS mop closet. I have asked Bob [REDACTED] to make sure that the char force is jacked up about this since it appears probable that they were responsible for both fires.
