DIARY NOTES

DD/S [REDACTED]

18 September 1961

25X1A9a

25X1A6a

1. [REDACTED] called to report on a message about which I had inquired on Sunday concerning communications facilities [REDACTED]. He assured me that the equipment and the communicator were in place and could go on the air at any time the [REDACTED] so directed.

2. I met with Jim Garrison, [REDACTED] and others from the Office of Logistics, CA Staff, and WH Division to discuss the necessity for a logistics base located [REDACTED]. Actually a base is already in existence but under the jurisdiction of WH [REDACTED]; the decision to be made is whether it will continue to be administered by WH/[REDACTED] or turned over to the Office of Logistics. WH [REDACTED] is most anxious to turn it over to Logistics; I have approved. (In conversations with this group and in a later conversation with J. C. King, I expressed my desire to go to [REDACTED] sometime within the next few weeks to look over our real estate. J. C. is most anxious to have me do this.

4. [REDACTED] telephoned to say that bids for the TSD [REDACTED] installation were in and that the Office of Logistics felt that they would need \$175,000 rather than \$150,000 to go ahead with this project. I asked Alan to assist TSD in preparing the necessary requests for the additional \$25,000.
