DIARY NOTES

25X1A

DD/S [REDACTED]

3 February 1964

25X1A

1. Bob Bannerman telephoned to say that the Department of State had of-

[REDACTED]

Meeting this morning. He asked me to ensure that Marvin saw Secretary Rusk so that he is set up properly and gets full support from the Secretary. I talked to Bill Crockett, Deputy Under Secretary of State for Administration, about this, and he assured me that he will arrange for Marvin to see Rusk.

2. At the Executive Committee Meeting this morning:

- a. The Director said that Secretary Rusk had requested that he loan the Department a top-flight technical man to assist his technicians in the sweeping of certain executive offices. Mr. McCone asked me to lay this on with Bill Crockett. I talked to Bill about this later in the day. He knew nothing about it but was appreciative of our offer and said that he would speak to the Secretary to find out exactly what he had in mind. Bob Bannerman also advised Ray Laugel of this and told him that we would be glad to make a man available at any time.

- b. The Director, having returned from his European trip, did not make a detailed report this morning. He was obviously concerned about France, DeGaulle's recognition of Communist China, etc. He also said that our position in [REDACTED] had not been understood by any of the European capitals which he had visited.

3. [REDACTED] telephoned to say that FMSAC wanted to set up a special signal center in their control room and wanted to get all NSA traffic as well as a lot of other traffic. He will meet with them this afternoon to try to come to grips with their requirements. I asked him not to make any commitments without a complete staff job which would include cost in terms of money as well as manpower.

25X1A9a

25X1A6a

4. Jim Garrison brought in [REDACTED], who had just returned from [REDACTED]. Ed apparently did a very good job in terminating the leases for those personnel who had been transferred PCS and evacuated their

homes. [REDACTED] also did a very good job in moving our permanent quarters construction program forward. Thanks to [REDACTED] strong support, it appears that we will get started before the rainy season and will have quarters available sometime within the next several months.

25X1C

I asked Jim to keep pushing on this but emphasized that we must firm up our agreement [REDACTED] establishing our clear ownership of these properties before we obligate any money. In general the plans call for the construction of eight duplex family units and eight BOQ's at one location, twelve family duplex units at another location, and eight BOQ's at a third location. All of these locations, however, are at [REDACTED] (In this connection, I want to write a Memorandum for the Record spelling out the number of these quarters which are planned for [REDACTED] so that there will be no misunderstanding about it in the future.)

5. [REDACTED] telephoned to thank me for stirring up some interest in his qualifications and said that he is scheduled to see [REDACTED] and Bud Wheelon next week. I told him that John Bross would have no vacancy for which he could even be considered for another six months. He requested that his interest not be made known to the Technical Services Division and also said that Mr. Kirkpatrick had told him that he wanted to have a further talk with him when he gets back from his trip.

6. General Carter came down and we discussed several items.

25X1A6a

a. He advised me that he had just received a call from General Blake of NSA about [REDACTED]. General Blake said that a group was planning the instructions which would be given to the military commander of the peace-keeping force going into [REDACTED] if agreement along these lines is finally reached. General Blake and General Carter wanted to make sure that we crank into any such planning instructions regarding the protection of our installations, the essentiality of uninterrupted communications, etc. I got [REDACTED] to work on this right away. At the close of business, however, we had been unable to find out exactly who was planning what. (I want to pursue this further with Howard tomorrow.)

25X1A6a

25X1A9a

b. I talked to General Carter about our summer employee program. He asked for a paper saying that he could make a negative decision, but since a positive decision would mean possible political criticism he would want to discuss it with the Director. (I have asked [REDACTED] and the Office of Personnel to come up with an appropriate paper.)

of a single individual. Apparently there is a growing tendency to do this in the DD/S&T. This complicates his security problems since some of these people are working in Agency buildings in the same way and to the same extent that a staff employee works; however, they have not been given a comparable security investigation or a polygraph interview. Bob will meet with Emmett Echols and others to talk about this within the next few days and will come up with some proposal as to how this situation should be handled. He will probably request that all such "EOD's" (not contracts) come to the Office of Security through the Office of Personnel. (In this connection, I seem to remember that Jim Garrison discussed this same problem with me some time ago from his point of view and I had requested that he submit a paper to me on this very subject which would enable me to seek policy guidance from General Carter.)

25X1A6a

b. I approved of a field trip by Bob Bannerman and [REDACTED] next week from Monday, 10 February, to Thursday, 13 February.

25X1A9a

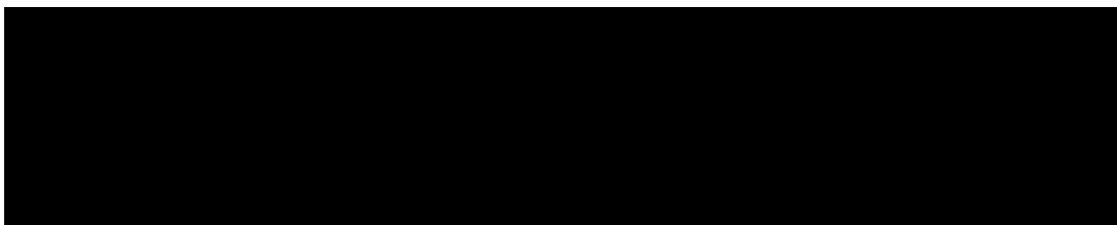

25X1A9a

c. Bob briefed me on a complaint by General Greer wherein some CIA people had been cut in on NRO projects without proper security clearances. Bob and Bud Wheelon have a difference of opinion as to what answer we should give General Greer. Bob wants to admit that we made a mistake and tidy up the whole thing. Bud, on the other hand, wants to tell General Greer that we reserve the right to cut in anybody in CIA at any time we want. Bob feels that this would give [REDACTED] the right to do the same thing in the Pentagon and is very much opposed to it from a security point of view. He and Bud will meet with General Carter this afternoon to present their separate views and obtain policy guidance. I gathered from talking to Bob that Bud's procrastination and failure to make positive decisions and move in precise directions is causing the Office of Security considerable difficulty.

d. I asked Bob Bannerman to rewrite the paper on the status of security clearances for DIA people working in our buildings and to set forth clearly the three categories of personnel in question and the status of each.
