

ADMINISTRATIVE — INTERNAL USE ONLY

8:40 Meeting - Wednesday, 10 October 1973

1. Military Fair:

STAT

of the Recruitment Division reported on their participation in the Military Job Fair held at San Antonio, Texas, October 4-6. Much smaller than previous programs at Crystal City they briefly interviewed some 125 men and women leaving service (many retirees). They gave applications to only nine.

✓ 2. High School Counselors: An article in the current issue of Engineering Education reports that only four percent of engineering students were influenced by their high school counsellors. The professional cooperative education associations have suspected this and have recently been running training courses to acquaint counsellors with the job opportunities in engineering.

✓ 3. Photographs: All of the photographs taken of the employees who received their longevity certificates from the Director at the Annual Awards Ceremony were mailed to the respective recipients yesterday.

4. Retirement Seminar: Retirement Affairs has tentatively identified all the speakers for the forthcoming Retirement Seminar and the six retirees who will constitute a discussion panel at the Seminar. I will review them myself before a final decision is made.
