The Agency as a Place for a Career

- Note: 1) We should put the Questionnaire with the figures on each question.
- 2) The word Highlights might be withdrawn from the first section (which you could put in second position ). While some more summary points could be put into this section, I hesitate to ~~xxxxxx~~ state any which have appeared in the text away from the total context because there are so many qualifications involved. To state them standing alone would be to give them a precision they do not deserve ~~xxx~~ in most instances. Itk would, of course, be possible to make a few such remarks, if it seems essential.

No recommendations are pertinent, I believe. This is a "finger on the pulse" reaction of personnel to the Agency the way it is run and their careers here.
