

21 June 1972

MEMORANDUM FOR: Director of Security

SUBJECT: Howard Hunt

AT 1. I think I had mentioned that Howard Hunt had raised a question of changing his election on his retirement annuity. The attached correspondence sets forth the problem and our response. It does show that much of a connection between Mr. Hunt and the Agency during this time, but it also confirms that he was fully retired and we were not utilizing him except for the time he assisted in writing a National Civil Service League award recommendation. [redacted] has the details on this last utilization of him.

2. I note that in the 21 June story in The New York Times Mr. Ziegler is quoted as saying that Mr. Hunt has not been involved in a consultant capacity with the White House since March. However, his letter to me of May 5th is on White House stationery. This correspondence is presumably in Mr. Hunt's personal possession. STA
