

Significance of Developments in International  
Communism after the 20th Century Congress of the CPSU

We have to offer the following comments on the above paper:-

- a) These reports are very useful, insofar as the general overall picture about Communism and its developments in International field is concerned.
- b) From our point of view we would like to have in addition something directly concerning the Central Asian Republics which, by virtue of their proximity are of greater interest to us.
- c) The time lag between the events and the receipt of such reports is another factor. We would very much appreciate if reports could be made available as soon after the event as possible when the subject matter is still fresh in the mind and is of current interest. This will enhance the value of the report considerably and also to keep us abreast of such developments.
