

CI Memorandum No. \_\_\_\_\_

TO: All Area Branches

SUBJECT: Coordination of the International Communist Movement:  
Deterioration and Remedial Measures

1. In the attachment we are forwarding two briefs on subject. The first brief, classified SECRET/NORFORN is for use of desks and field stations. The second, classified SECRET is for use as exchange material. Both the field and liaison sources are requested to forward any pertinent comment, criticism or additional information. We believe the subject matter to be of sufficient interest to warrant a special field collection effort.

2. Note that the version prepared for station use only contains more specific and sensitive data, and request stations to treat this information with utmost care.
