Preface

This directory is intended to provide in easily accessible form basic information, including the identification of persons, on an international Communist front organization and its national affiliates. Since these organizations, in spite of Communist control, are not composed exclusively of Communist party members, the inclusion of any specific name in the directory should not be considered as evidence of Communist party affiliation. Experience has shown, however, that the proportion of Communists is highest among those persons occupying positions as functionaries in the international bodies of these fronts.

It is recommended that those holding the directory annotate the personal entries under the national affiliates of primary concern to show Communist party membership wherever this fact is known.
