Office Memorandum • UNITED STATES GOVERNMENT

ENG-M 9-473

DATE: 20 MAY 1959

TO : Director of Communications

FROM : Chief, Engineering Staff, OC

SUBJECT: OC-E Monthly Report - April, 1959

1. Forwarded herewith is the Engineering Staff Monthly Report for the period 1 April 1959 to 30 April 1959.

2. During the reporting period, responsibility for the operation of the Communications Engineering Library was transferred from the Office of Communications to the Office of Central Reference. Shortly after the transfer was made, it became apparent that confusion existed as to the responsibilities and duties of the two Library employees. Several meetings have since been held between OC and CIA Main Library representatives in order to iron out these difficulties. During the past several weeks, some improvement has been noticed and it is hoped that this will continue.

3. All components for the one-kilowatt portable broadcast package will be received by the end of June. This will permit co-ordinated OC, DD(P) Staff field tests to begin in July, two months ahead of the original September estimate.
