## SOVIET BLOC OPERATIONS COURSE

Soviet Bloc Operations Course No. 3-69 will be given 27 January through 14 February 1969. PLEASE NOTE: This is now a course of three weeks duration. It will be held in Room 1A 07, Headquarters, from 0830 to 1700 daily. As announced in the referent memorandum, this course is required for all CS staff officers and intelligence assistants who are preparing for field assignments in which a substantial amount of their time will be devoted to the Soviet Bloc target or who have not had a recent permanent or rotational assignment in the Soviet Bloc Division.

The Soviet Bloc Course is also offered for Headquarters CS Staff personnel who are engaged in activities against the Soviet Bloc target; however, field personnel will be given enrollment preference in the event the course is oversubscribed.

The objectives of the course are to orient the student on the special nature of the CS' Soviet Bloc target and to examine the application of clandestine methods for collecting information on, assessing, and preparing recruitment operations against Soviet Bloc personalities. The expansion of this course to a three week format reflects the emphasis being placed on operations against the Soviet Bloc target by the Clandestine Services. The expanded course now devotes one week exclusively to examining the character of the Soviet Man today as a target of CS operations, and those historical, cultural, political and social factors which have influenced his psychological makeup.

For additional information on the course, call [redacted] OTR Operations School, extension 25X1A [redacted] concerning registration, call OTR Registrar's office, extension [redacted] 25X1A
