Dear Andy:

Colonel White thinks that it would be well if we had your plan for moving the staff to Reseda with minimum interruption to operations pretty well crystallized before he talks with you in Reseda so that he can simply suggest changes and give his approval.

I suggest therefore that, to the extent possible, you work out a detailed plan and send it to me so that we can come to an agreement before presenting it to Colonel White.

It will be possible, if necessary, to transfer some of your Far East coverage temporarily to Kauai and some of your Latin America coverage here as well as to reduce Russian texting by getting as much commentary as possible from London. AP, UP and Morse could be eliminated for a few days. As far as possible, I should like to maintain full monitoring coverage of Soviet broadcasts and full coverage of Chile and Peru without interruption.

Sincerely,

STAT
