

Chief, Army Communications Service

9 Feb 1949

Chief, FBIB

Traffic through AT&T New York

1. Attached correspondence and teletype conversations forwarded from UFPBK indicate loss of channel time on 31 January 1949 from 0238Z to 0813Z due to operative error on the part of AT&T New York. Mr. Gentry on 1 February reported by telephone no log record of the outage.

2. It is suggested that claim be submitted to AT&T for the loss. It is suggested further that if the USP operator's statement "We have a lot of trouble with AT&T on this business" is found to be correct, AT&T be requested to improve the efficiency of the New York relay.
