MEMORANDUM FOR: TSS/ASD

SUBJECT: Request to Construct "Time Signal Radio"

1. It would be appreciated if a "Time Signal Radio", could be designed and assembled by your engineering branch. The electrical and performance specifications have been discussed orally with [] and highly satisfactory progress has been made in this regard. If a single unit is assembled and schematic circuitry is provided, these items will greatly assist APD with one of its current projects. It is suggested that Centralab be requested to provide the necessary interstage couplers and completed stages, if possible.
