MEMORANDUM FOR: THE RECORD

SUBJECT: P-102, Transducer and Actuator Index, Project Status

1. Present Status: The transducer and actuator index has been transferred from [] to the Office of Basic Instrumentation at the National Bureau of Standards. It is to be operated there as part of the OBI program sponsored by APD through the Office of Naval Research. The group, under Mr. Wildhack, is to maintain the index in such a manner as to keep it up to date and expand it wherever the OBI thinks necessary. Four indices have been received from [] Their present disposition is: one each APD, one each OBI/NBS, 2 each Special Projects, [] A letter has been received from [] formerly of [] In it, [] indicates that he was responsible for the development of the index and since he has broken connections with [] would like to continue keeping the index up to date. This letter was not answered since [] already knows that the index is being handled by NBS. Further questions concerning the index should be directed to []
