DISPATCH NO. [] 50X1

(SPECIFY AIR OR SEA POUCH)

~~SECRET~~
CLASSIFICATION

TO : Chief, KUCLUB

DATE: 14 August 1957

FROM : Chief, []

50X1

SUBJECT: GENERAL— Operational/Engineering

SPECIFIC— Proposal to Make Chinese Copies of [] on []

550X1

1. Recently in liaison contacts with the 522nd MI, G-2, and the 7982nd USAREUR Liaison Group, we have observed a small mechanical keyer which they are considering producing for use in connection with clandestine commo operations. This keyer was loaned to them from local [] offices and/or [] sources, which source we are not certain. A more detailed description of this keying device will be forwarded in a later pouch.

50X1
50X1

2. The 522nd representatives have proposed that [] build one hundred of these keyers for the 522nd. Chief [] has advised the 522nd that they do not have the capability for such production. The above information prompted the thought in [] that possibly Headquarters would consider favorably a plan to produce a number of Chinese copies of the [] system on [] market. It is believed, many at Headquarters will agree that there are many [] manufacturers who excel at this type of model-shop work.

50X1

3. Considering the above, it is recommended that KUCLUB consider policy factors which might be involved in Chinese copy production of the [] on the [] market and advise Chief [] as to whether he should proceed with obtaining estimates, etc., essential to establishing financial support for such a program. We in [] continue to have a very active enthusiasm for the [], in fact, we are more enthusiastic about it as time and experience permits increased use and test of the unit here.

50X1
50X1

4. Because of the very active requirements for this type of equipment, we will be most appreciative if Headquarters will give this proposal an expedited handling.
