TELEPHONE CONVERSATION WITH [REDACTED]

25X1

1. There is a strong possibility that additional units of the CV-1 will be produced both in this country [REDACTED] A complete set of specifications and information for fabrication (electrical, mechanical and photographic) is requested to follow the three CV-1 units now being constructed by about two weeks.

25X1

2. Attention is directed to two problems previously encountered:

- a. Raising the tuning knob ✓
- b. Antenna leads shorting to the case. ✓

ACTION

1. [REDACTED] stated that it is not practical to accomplish a. since a raised knob will place undue stress on the capacitor. The difficulty b. has been remedied.

25X1

2. [REDACTED] states that complete mechanical drawings will be ready when the three units now in fabrication are complete.

25X1

3. Care should be taken that the A&A on the three units establishes all desired electrical specs.
