

EO 4362

11 January 1955

25X1A9a

TO: [REDACTED]

MEMORANDUM FOR: Security Officer
SUBJECT: Ultrasonic Alarm System

25X1A9a

1. I am in receipt of a copy of a memorandum from Mr. [REDACTED] dated 12 November 1954, on the subject of an ultrasonic alarm system for the office which has extremely sensitive material within the Site III compound.

25X1A9a

2. I am in hearty agreement with the notion of requesting one ultrasonic alarm system portable unit, cost \$550, whose utilization would be connected with such ultra-sensitive office.

25X1A9a

3. In Mr. [REDACTED] memorandum, paragraph 4, he recommends in three sub-paragraphs several additional checks by responsible Staff members and I desire to state to you that I have no objections to these recommendations.

25X1A9a

4. In the fifth paragraph of Mr. [REDACTED] memorandum he also mentions a "Detox Clock station" and the possibility that it might be installed outside the door and adjacent to the door port so that the hourly guard patrol can make a visual inspection of this secured area. I have no objections to this notion.
